

Downloading video and audio from youtube

Download a video with subtitles embedded in the video

```
yt-dlp --write-sub --sub-lang en --sub-format srt --embed-sub https://www.youtube.com/watch?v=VIDEO_ID
```

Downloading a playlist into mp3

```
yt-dlp -x --audio-format mp3 \  
      --embed-metadata \  
      --audio-quality 5 \  
<link>
```

NOTE: after the last slash the format for playing is /watch?v=<numbers1>&list=<numbers2> need to be must be /playlist?list=<numbers2>

Downloading multiple files using a file with links (one per line)

```
yt-dlp -a links \  
      -x --audio-format mp3 \  
      --embed-metadata \  
      --audio-quality 5
```

Troubleshooting

Appears yt-dlp is in constant tug of war with google, so make sure you use the latest version.

```
yt-dlp -U
```
